

Machine for attaching labels by Only One Stitch.

- AVAILABLE for our automatic unit for attaching rider labels to socks **by sewing thread ref. D.E.C.C.R. ref.4.**

Application

The machine head is used for fastening labels and tags to a wide variety of FRAGILE articles including socks, gloves, underwear etc., using a unique thread knotting system.

Unique labeling

Unique knotting system to create a secure fastening whilst remaining neat and attractive.

QUALITY

Very fine sewing needles and only 1 stitch eliminate fibre or yarn damage.

Even the most fragile items do not sustain any damage.
