

**MACHINE FOR FASTENING PRODUCTS WITH  
« HOOK » TYPE OF PLASTIC FASTENER OR  
“STANDARD” PLASTIC FASTENERS IN CLIP WITH  
AUTOMATIC CARDBOARD TAG DISPENSER**

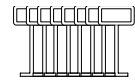

**NEW**

*« Hook » type of plastic fasteners*

*« Standard » type of plastic fastener in clip.*

The main feature of this machine consists in allowing to fasten tags by a plastic hook fastener or a “standard” plastic fastener in clip in automatic cycle (see diagrams).

This machine uses hooks or “standard” plastic fasteners which come in clips of 50 pieces. Changing fastener clip is very fast, it is achieved in a few seconds without using a tool.

The tag feeding store is adjustable by the operator in order to adapt to the different sizes of the market.

**MAIN QUALITIES OF THIS MACHINE** : simple to use, sturdy, productive, low maintenance.

**ESTIMATED PRODUCTION** : between 800 and 1000 fastening operations per hour, according to the type and size of the products, the length of the runs, and the operator skill.

Option : a second automatic tag dispenser for fastening 2 tags of different size and shape.

**APPLICATIONS** : toys, display box for small products, small products which are suspended with a hook.

**SPECIAL DESIGN UPON REQUEST : PLEASE CONTACT US.**
